Subject: Emerging Leaders in the Americas Program (ELAP)

Dear Evaluators,

I am writing this letter regarding the application of NOME DO APLICANTE a PhD student in NOME DO PROGRAMA E DA UNIVERSIDADE. She is a candidate for funding of a research scholarship from the **Emerging Leaders in the Americas Program (ELAP)** of the government of Canada, for a six-month doctoral program exchange, between September 2019 and March 2020, at the University of Manitoba in Winnipeg, Canada, where she will conduct a research and learn more about aging in Canada.

This student will hold the doctoral exchange in the Centre on Aging of Dr. **NOME DO PROFESSOR**, chair of the Interfaculty Option in Aging, where healthy aging is her area of interest. Another important fact is that aging in Canada has been a long time researched topic and Centre on Aging is one of Canada's longest standing research centers in this area.

It is relevant to point out that M. Sc. **NOME DO APLICANTE** has been my master student and my doctor student and has been studying elderly upbringing since then. She is an exceptional student, a dedicated researcher and won an honorable mention at XVI Graduate Exhibition at UENF in 2016. Her topic of research is extremely important as population ages. The exchange will certainly strengthen existing partnerships with related researches in Brazil, reinforcing global partnerships.

With the above mentioned, I sincerely believe that NOME DA APLICANTE term in Canada will contribute to her own development concerning literature not available in Brazil. As well as explore a community where aging has been a topic of research for many years.

I support NOME DO APLICANTE's application to develop the activities proposed in her research plan.

Best Regards,

-
